

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. SUMMER HOMES. PERMANENT HOMES.
REST AND RECREATION.

LONG ISLAND

Within easy Access of New York City

LONG Island is practically the only section of the United States with coast line running east and west. This fact influences the climate of the Island, for the prevailing winds in summer are from the ocean, sweeping north to Long Island Sound.

The popularity of Long Island is rapidly spreading and each summer an increasing number of its sojourners are coming from the West and South.

To the lovers of sailing, deep sea fishing and surf bathing, the many resorts of the southern coast beckon invitingly.

The northern shore, along Long Island Sound, different in aspect from the ocean side of the Island, is equally enticing. Here are deep bays, where excellent anchorage is to be found, and inlets which break into and add to the picturesque woodlands and meadows, farmlands and beautiful residence sections. Nowhere in the vicinity of New York City are there to be found so many grand estates of New York's well-known people as are to be found on Long Island.

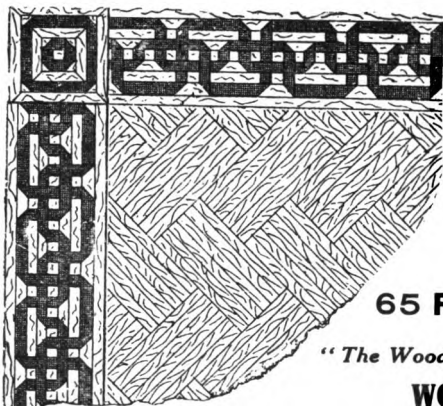

Nearly one-third of the golf courses in New York State—many of national repute—are located on the Island, all within easy access of New York City by the frequent train service of the Long Island Railroad.

The thousand miles of excellent macadam roads on the Island has caused motoring to become most popular. The well-kept roads along the north shore are particularly alluring and are much frequented by motorists from all the surrounding country.

CALL PROSPECT 3508

The comfort of the invalid and the satisfaction of the well are assured by our Private Auto-Ambulance Service. It was introduced experimentally for the benefit of those who have a natural dread of the public conveyance; but it was so eagerly welcomed as a boon to the invalid that we have greatly increased the service and added important accommodating features.

Private Auto-Ambulance and Invalids Car

safe transfer of patients with the least possible degree of inconvenience or discomfort. They are arranged for either bed or chair at the need of the person under care. They are lighted and heated by electricity. The patient may have the benefit of the free open air or be closed in from the slightest draught as circumstances may require. A patient has been driven rapidly a distance of thirty miles so free from agitation or nervous disturbance that an immediate successful operation was performed on arrival at the hospital.

We send trained nurses, male or female, when such additional service is wanted. Engagements are made to meet any incoming or outgoing railway train or passenger boat.

POSITIVELY NO CONTAGIOUS CASES ARE TAKEN

We also are prepared to rent touring cars for Receptions, Balls, Theater Parties or by the Hour, Day or Week. Terms most reasonable, and the service will satisfy you in every particular. Have the phone number, Prospect 3508, where you can see it in an emergency.

The Brooklyn Citizen

prints the news when it is news. Every evening and Sundays it reflects to a large and ever-increasing family of readers, embracing a very large percentage of the better element of our city, the current news of city, state, nation and universe. While its political policy is Democratic in all things, its editorial stamina is powerful in forcefulness, intelligence and fearlessness.

For Twenty-three Years

The Citizen has stood for all that is good in things civic ; its efforts have been ceaseless in the betterment of our city, particularly this borough, since its inception. On matters political, educational, literary, it has stood pre-eminent in its field. It is a recognized authority on all matters of sporting and theatrical interests. Its advertising columns are restricted to the really enterprising, industrial and mercantile interests of the city and country.

1c. Daily, 3c. Sundays

If you have not already done so, leave your order with your newsdealer to-day and have *The Citizen* left regularly at your home.
